

```
graph BT; A[\"Todo::AddAction\"] --> B[\"Todo::Action\"]
```

Diagram illustrating a relationship between two classes:

- The top class is `Todo::Action`.
- The bottom class is `Todo::AddAction`.
- A blue arrow points from `Todo::AddAction` up to `Todo::Action`, indicating that `Todo::AddAction` inherits from or specializes `Todo::Action`.

`Todo::AddAction`
